# December Decorating Safety Tips

**Flammable seasonal decorations combined with an increased use of candles and fireplaces means a higher risk for fire.**

Place any candles where they cannot be knocked over. Keep them out of reach of children and pets.

Keep your chimney and fireplace clean. Your chimney should be cleaned at least once a year.

If you have an artificial tree, make sure it is fire resistant. If you have a real tree, keep it watered to prevent it from becoming too dry.

For any trees or other large decorations, keep them away from fire and heat. Keep doorways and emergency exits clear.

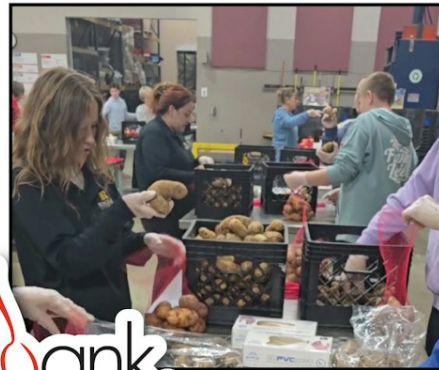

Replace any broken or damaged decorations and lights, such as those with frayed wires or broken sockets.

Use proper lighting. Outdoor bulbs should be used outdoors, and indoor bulbs should stay indoors.

Do not leave lights or flames unattended. Turn these off or extinguish them before you step away.

Use artificial flames where possible. Do not use real flames near other decorations.

Our office took time to give back to our community in November. We volunteered at the St. Louis Area Foodbank to help sort, portion, and package food.

## CLIENT REVIEW

Everyone in the office was communicative, responsive, thorough, and thoughtful. Admir and his team were fantastic, explaining each step of the process as it unfolded. They took my phone calls and answered my questions. During what was a stressful time for me, they helped me remain centered. I gave them whatever information they needed and they did the rest!
